Price : All modules price between **¥ 12.5~ ¥ 15**.

The module which with Shielded shell can pass FCC and CE certification, export guarantee.

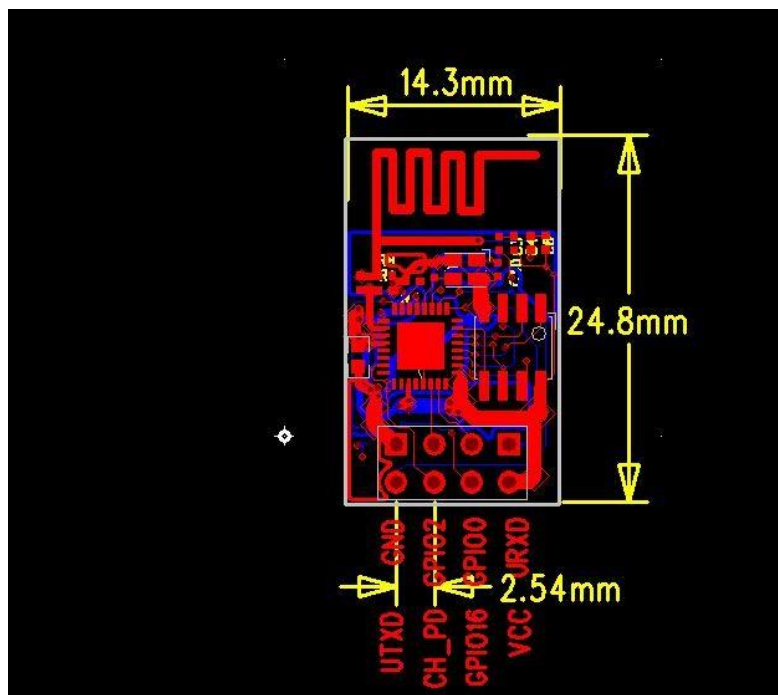

Features :

- 1 ESP-01 PCB antenna , after matching , In the open spaces, it can 400m communication distance.
- 2 ESP-02 SMD package, suitable for small size, the antenna can be drawn with the IPX header.
- 3 ESP-03 SMD package, built-in ceramic antenna. Full IO version.
- 4 ESP-04 SMD package, customers can customize the antenna, flexible design all available IO.
- 5 ESP-05 SMD package, only have serial and RST pin , small external antenna .
- 6 ESP-06 Bottom mount technology , leads all the IO ports with metal shielding can be passed FCC CE certification.
- 7 ESP-07 Semi- hole technology, leads all the IO ports with metal shield can pass FCC and CE certification IPX external antenna , built-in ceramic antenna can also be used .
- 8 ESP-08 Same as ESP-07 , but can customize the antenna.

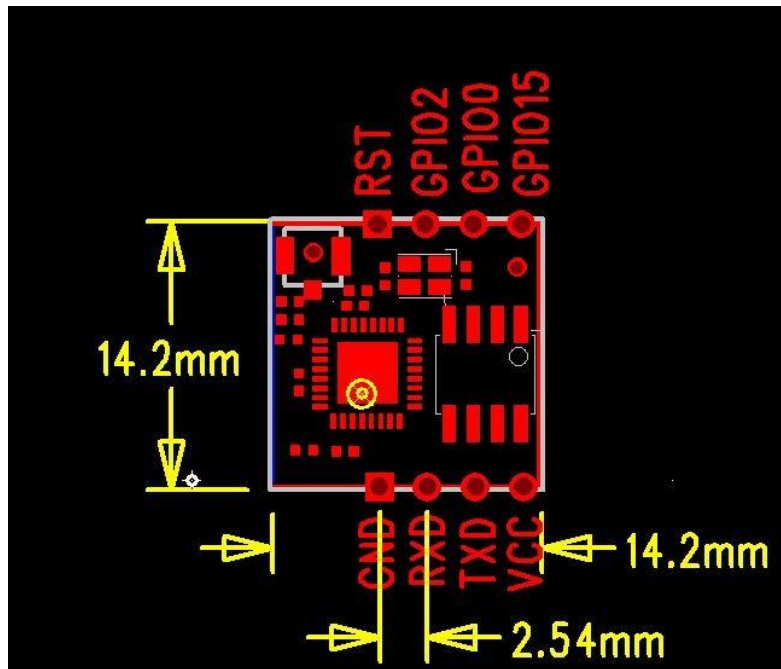

9 ESP-09 Ultra-small size package , only 10 * 10 mm , four layers ! And the FLASH already impedance matched , bottom mount technology for strict limits on the volume!

10 ESP-10 SMT , Narrow , 10mm width. Suitable for LED light bar controller.

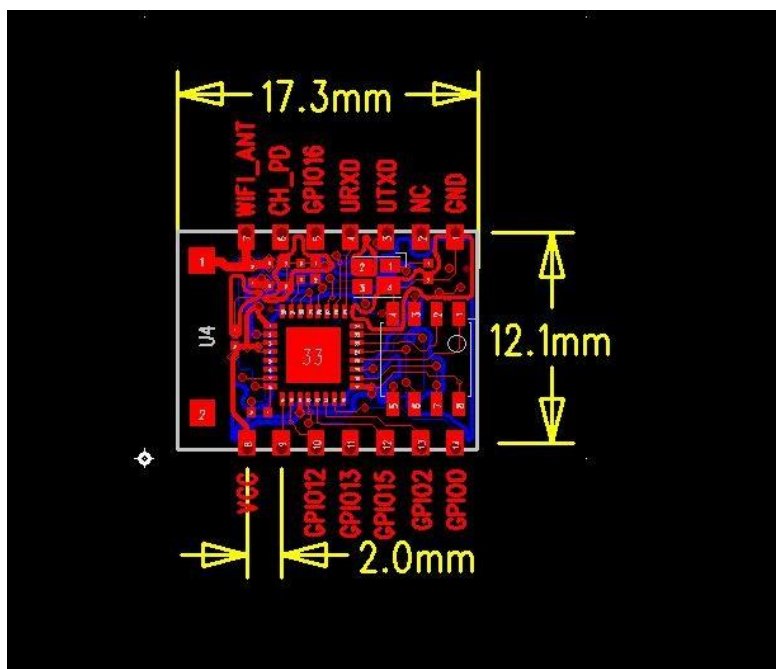

11 ESP-11 SMT , Ceramic antenna , Small size.
